# OFFICIAL SUPERSQUEEZE WHITEPAPER

About Us

SQUEEZE is the first community ran deflationary BSC token with the goal of squeezing its supply, therefore increasing its price and value. Transparency and authenticity are placed at the heart of SQUEEZE which is why the community is placed in the driving seat, giving them more power than any other token out there.

The growth potential of SQUEEZE is infinite and together we can create the biggest squeeze in crypto history. Holders are rewarded for participating in the squeeze through reflections and super squeezes, benefiting them both short and long term.

History

Inspired by Safemoon's '#SafemoonSqueeze' which took the crypto world by storm, SQUEEZE is a token that aims to be bigger and better by placing this idea into a fully functioning token.

The idea of a token dedicated to squeezing its supply and price through community cohesion hadn't been done before, making SQUEEZE the first of its kind. SQUEEZE puts the community first, encouraging team cohesion and community spirit.

Community Power

SQUEEZE believes that building a successful token relies on transparency, authenticity and having a strong community. Therefore, we have created SQUEEZE in such a way that there isn't an 'owner', instead the holders are treated as the owners.
From minor to major decisions, the growth of SQUEEZE will be pathed by the community through regular AMA's, Twitter/telegram polls and Reddit posts.

Tokenomics

SQUEEZE was initially created with a supply of 1000,000,000,000,000 (1 quadrillion), 30% of this was burnt on the first day of the SQUEEZE. All SQUEEZE transactions consist of a 10% tax fee, which rewards long-term holders for participating in the squeeze. Token supply is also constantly decreased through the permanent burning of tokens through transactions, essentially squeezing the price and slowly raising the price floor.
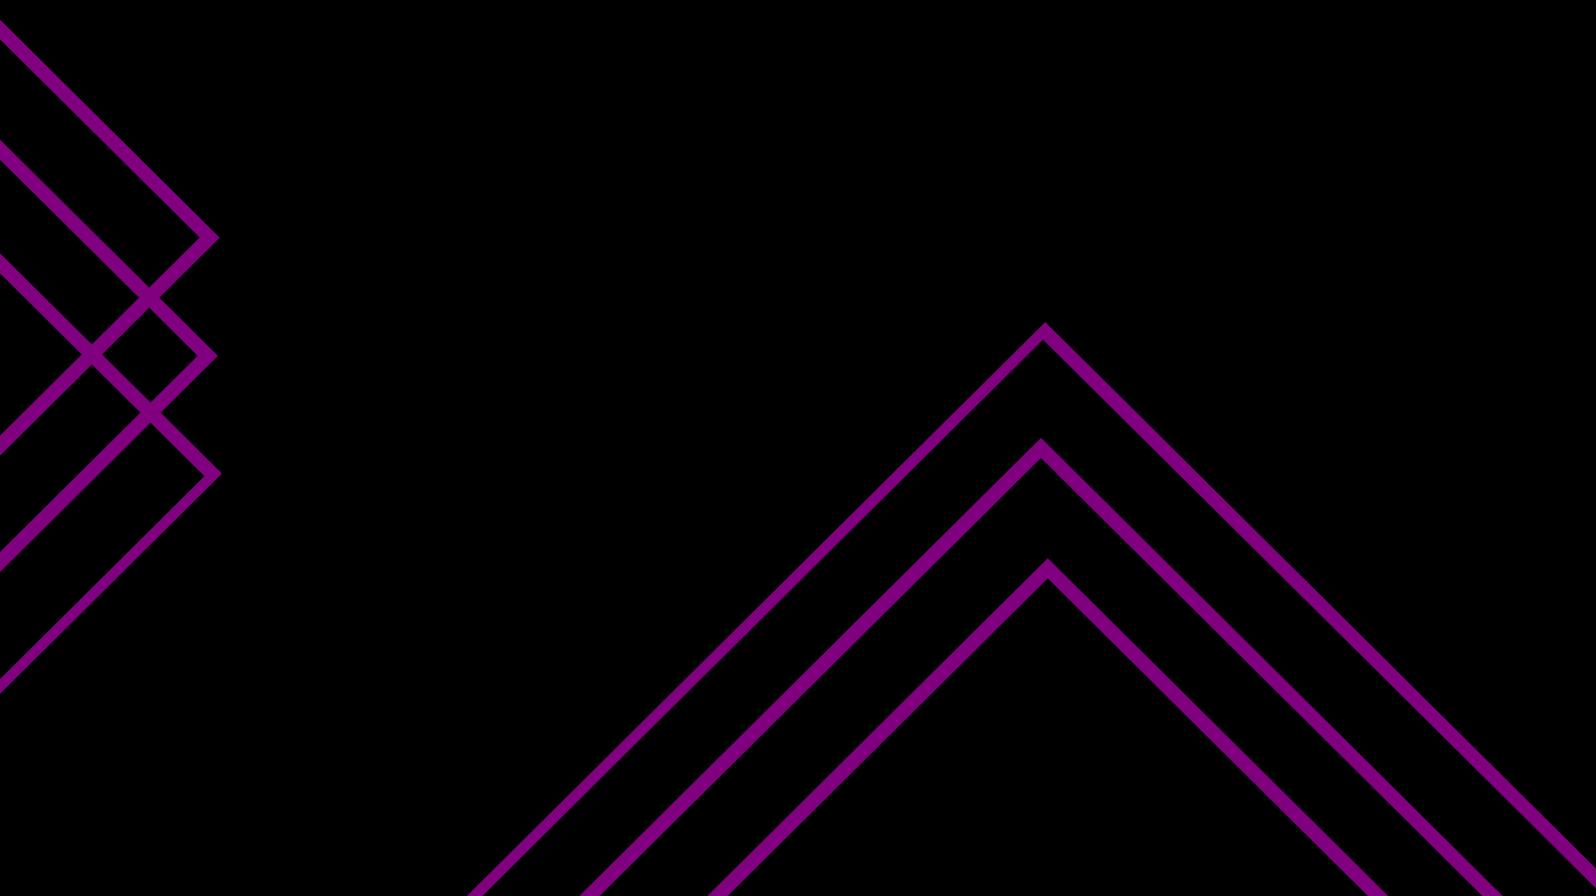

Play2SQUEEZE

A fun and addictive way to Earn and Burn SQZE.

SQUEEZE is currently in the process of creating a fun 3D first person survival shooter which all holders will have access to. Play2SQUEEZE will be a fun and addictive way to earn and burn SQZE tokens! The game will include multiple environments, a wide selection of weapons, a variety of enemies including challenging boss fights and special rewards such as rare NFTs, new weapons, SQZE airdrops and powerups.

Main features:
- 5 survival maps
- Customizable character
- Collectable skins and NFTS
- SQZE rewards
- Variety of weapons
- Challenging enemies
